Working Issues

1. FERC Order 825 – Discussion on Sub-Hourly Settlements

Mr. Ray Fernandez, PJM, provided an update on Manual revisions, upcoming education sessions, and Market Participant Unit Testing and Market Trials.

Revisions to Manuals 11, 18, 27, 28, and 29 will be presented at the December 7, 2017 MRC for endorsement.

5-Minute settlements education sessions will take place on December 8, 2017 and January 8, 2018. Registration is handled through the [Tech Change Forum page](#) on PJM.com.

PJM has released customer specific test data for operating day December 3, 2016 to the MSRS training environment. Available reports were communicated to the Market Settlements Subcommittee email distribution list on November 8th, and additional reports will be available for unit testing in November.

PJM is targeting the week of November 20, 2017 to have Market Trial data available in the MSRS training environment for the November 13, 2017 operating day. Members will be able to download several Day-ahead and Balancing reports in the MSRS training environment and compare them against the hourly production results for specific operating days. Additional Market Trials are planned for Ancillary Services and Operating Reserves, and are scheduled to begin in mid-December. PJM will communicate all report updates to the Market Settlements Subcommittee email distribution list.

Please email mss@pjm.com with any questions or comments related to Sub-Hourly Settlements.
