

# Bright Ideas: Member Feedback Process

Helen Burnley  
Sr. Client Manager  
Market Settlement Subcommittee  
October 18, 2018

- PJM receives process improvement recommendations from Members, however, we did not have a centralized method to track, review and respond
- In October 2017, PJM launched a mechanism to track, review and respond to these recommendations – Bright Ideas
- PJM cross organizational team determines feasibility of the request, implementation costs and development timeline
- Members can submit recommendations via Tech Change Forum Community or Client Manager
- View your and all Bright Ideas in the Tech Change Forum Community

A recommendation that enhances, changes or creates a way of interacting with PJM – technically, externally or personally

## What it is:

- Change or new feature on PJM.com
- Change or new feature in Tools
- Enhance log-in ability
- Stakeholder meeting data/information
- Enhance Governing documents

## What it is NOT:

- Day Ahead Market timing change
- Stakeholder meeting scheduling
- PJM view on a FERC filing
- Change Manual or Tariff language
- Circumvent stakeholder process
- Compromise security or best practices

As of September 24, PJM has received 60 Bright Ideas since October 2017

- 5 have been implemented
- 13 are expected to be implemented before 2018 year end
- 6 are approved but waiting for funding and a project team
- 12 are still under evaluation to obtain feasibility, cost and timeline
- 11 were unable to complete
- 11 were declined
- 2 were resolved

1. Single User Multi-Account (SUMA) (Phase 1)
2. Single User Multi-Account (SUMA) (Phase 2)
3. Generator LMP Charge Summary Report – increased ability to download 7 days instead of only 1 day
4. eDART historical Transmission outage report – allow for All transmission zones to be selected
5. System map – restored feature that shows a generating substation as a square instead of circle

1. MSRS – Single User Multi-Account (SUMA)
2. MSRS - Invoices for entire company
3. MSRS - Consolidated subaccounts in single download
4. PJM.com - Add Generation Deactivations information to System Map
5. PJM.com - Create individual stakeholder ICS calendar feeds
6. PJM.com – create new tools outage page and allow API call
7. DR – create separate calendar showing energy deadlines
8. InSchedule – allow confirmation of multiple contracts at one time
9. Queue Point – allow multiple users access to queue positions (requirements phase only)
10. Resource Tracker – create Restoration Contact section and add Queue number
11. Account Manager – enhance current registration process and create ‘whitelist’ capability
12. Account Manager – create API to enable user account reconciliation
13. Stakeholder – enhance current meeting registration process

## Declined:

- Make PAI over ICCP the primary notification for PAI
- Transfer data between Markets Gateway and eDART
- Send RT LMP via ICCP
- Create own security questions in Account Manager
- Increase the API row limits

## Unable to Complete:

- Auto-populate Markets Gateway with InSchedule data from current day
- Configure Markets Gateway with IE
- Creating new MSRS reports
- Expand number of days to download from MSRS
- Allow for automatic collection of data in DM2

[Community Usage Guidelines](#)

- 1 Select “Submit a Recommendation” under the Bright Ideas Menu.
- 2 In the Description field, please provide as much detail as possible about your Bright Idea. Should more information be needed, a PJM Client Manager will reach out to you.
- 3 Hit submit.

The screenshot shows the Bright Ideas submission form interface. At the top, a navigation bar includes links for Home, Topics, Roadmaps, Tech Change Forum, Bright Ideas (highlighted with a yellow box and callout 1), and Communities. Below the navigation bar is the 'BRIGHT IDEAS' logo, which features a lightbulb with a gear inside. A paragraph of text explains that process improvement feedback can be submitted here and that the team will evaluate it and work with relevant PJM staff members until the request is resolved. Below this text is a large text input field labeled 'Description' (highlighted with a blue box and callout 2). Underneath the description field is an 'Add Attachment' link with a paperclip icon. At the bottom of the form is a blue 'Submit' button (highlighted with a green box and callout 3).

**1** Select “All Recommendations” under the Bright Ideas Menu.

**2** This report will display all of the Bright Ideas Recommendations that are currently being considered as well as their status.

## Tech Change Forum

The Tech Change Forum is a group for PJM and its members to coordinate, consolidate and share information about upcoming changes to PJM's tools and systems. The forum will meet regularly to discuss how PJM can help members get ready for planned changes, the design of tools' features and their prioritization, and how and when changes will be implemented.

The forum is for individuals who work hands-on with PJM's tools or are responsible for the technology their organization uses to work with PJM's tools.

**Facilitator:** Jim Gluck  
**Secretary:** Monica Burkett

During the meeting, if you are experiencing issues with connectivity or teleconference, please contact [Meeting Support](#). For registration issues, [contact PJM](#).
