System Operator Certification Program Survey

System Operator Certification Program Survey available through January 31, 2018

The Personnel Certification Governance Committee (PCGC) is in the process of reviewing the NERC System Operator Certification (SOC) program. Industry input is a critical part of the process. The PCGC is requesting input from industry stakeholders related to the SOC program for potential future program development and/or improvement.

All program participants including certified System Operators, program candidates, Continuing Education providers, and entity trainers, are encouraged to participate in the survey. Your input is valuable.

Commenting

Please use the [electronic form](#) to submit survey responses by January 31, 2018. An unofficial Word version of the survey is available on the [System Operator Certification page](#) and the [Continuing Education page](#) of the NERC website. Please reference the Word version of the survey on the website for Table 3.

Next Steps

The PCGC will review all responses submitted by industry stakeholders.

Please send any questions to SOCCEDSupport@nerc.net.
