

EDART STATUS UPDATE – SOS MEETING

I. December Enhancements – 12/11

- Ability to attach files to Generation outage tickets.
- Transmission Outage Tickets enhancements
- Downloads and Reports of Historical TERM Tickets
- Attachment G form in eDART
- Voltage Schedule – new tool for transmission and generation users to communicate voltage schedules. Web interface & XML supported.

II. 2019 Enhancements

- Reactive Reserve Check (RRC) enhancements.
- Company Distributed Workflow (~June 2019)
 - Company admins will be able to assign agent companies to act on their behalf.
 - Company admins for Generation companies will be able to split eDART tasks on per unit/per user basis.
 - Minimize the need for multiple sub-accounts per company and multiple user accounts per person.
- Voltage Limits - new tool for transmission users to update and view current voltage limits on buses.

III. Discussion Topics

- User Experience Analysis for the eDART Refresh is ongoing. Users of the eDART web UI and browserless interface (including vendors) interested in providing feedback should contact Chidi Ofoegbu.
- Voltage Schedules overview available on eDART User Group page:
