EDART BROWSERLESS REFRESH UPDATE

- Phase 1, transition to PJMCLI, to be completed March 31 in eDART Training.

  - Details discussed during March eDART XML Forum.
    Materials available at https://pjm.com/committees-and-groups/forums/edart-forum.aspx

  - Production deployment of Phase 1 scheduled for April 14.

- Phase 2 = Minor enhancements and fixes; expected to be completed Q2 2021

- An updated User's Guide and training will be provided for each phase

- The filetransfer.jar and legacy URLs will be retired in December 2021

DYNAMIC LINE RATINGS ENHANCEMENTS

- Discussed during the 3/30/2021 OC Special Session

- Enhancements to eDART to handle DLR:

  - Ability for Transmission Owners with DLRs to upload and download forecasted ratings (CSV format)

  - Files to be added to Ratings Information page on OASIS

    - Dynamic Line Ratings Forecast (zip file with latest uploaded forecasted ratings)

    - Historical Ratings (zip files with Ratings, Temporary Ratings and Dynamic Line Ratings Forecast per company)

- Implementation Timeline: May-June 2021

OTHER DISCUSSION TOPICS

- Conversion of eDART files (.txt and .csv) available on pjm.com to zip files in July 2021.

  - Files were designed to be read by users but several users are currently using programs to scrape the data.

  - Due to the size of some of the files, users receive only partial files when downloading the files from pjm.com.

  - Conversion to zip files will reduce the data transfer size for users.

  - No changes to the current files links expected.

  - Files are available via the Public Files report in eDART.

    - Information in some of the files also available via XML downloads in eDART.

- Companies interested in using the Company Distributed Workflow (CDW) functionality should contact the eDART team for demo and set up requirements.
