

Manual 01: Control Center and Data Exchange Requirements, Revision 49

Ryan Nice, Manager EMS Support

System Operations Subcommittee
November 26, 2024

- Section 1.10 Planning Systems, Added reference to Manual 20A Resource Adequacy Analysis.
- Section 3.2.4.1
 - Updates to all rating and monitored equipment language for consistency with other PJM Manuals.

Manual 01: Control Center and Data Exchange
Requirements, Revision 49

- Section 4.5.3 Definitions
 - Update “rating” to “Transmission Facility Rating” for consistency with other PJM Manuals.
 - Replaced “When the final Step is cancelled” to “When all Capacity Emergency Procedure Steps (1-10) are cancelled” for clarity and precision.
 - Replaced “Load shed” with “Load Shed Directive” for appropriate term use.

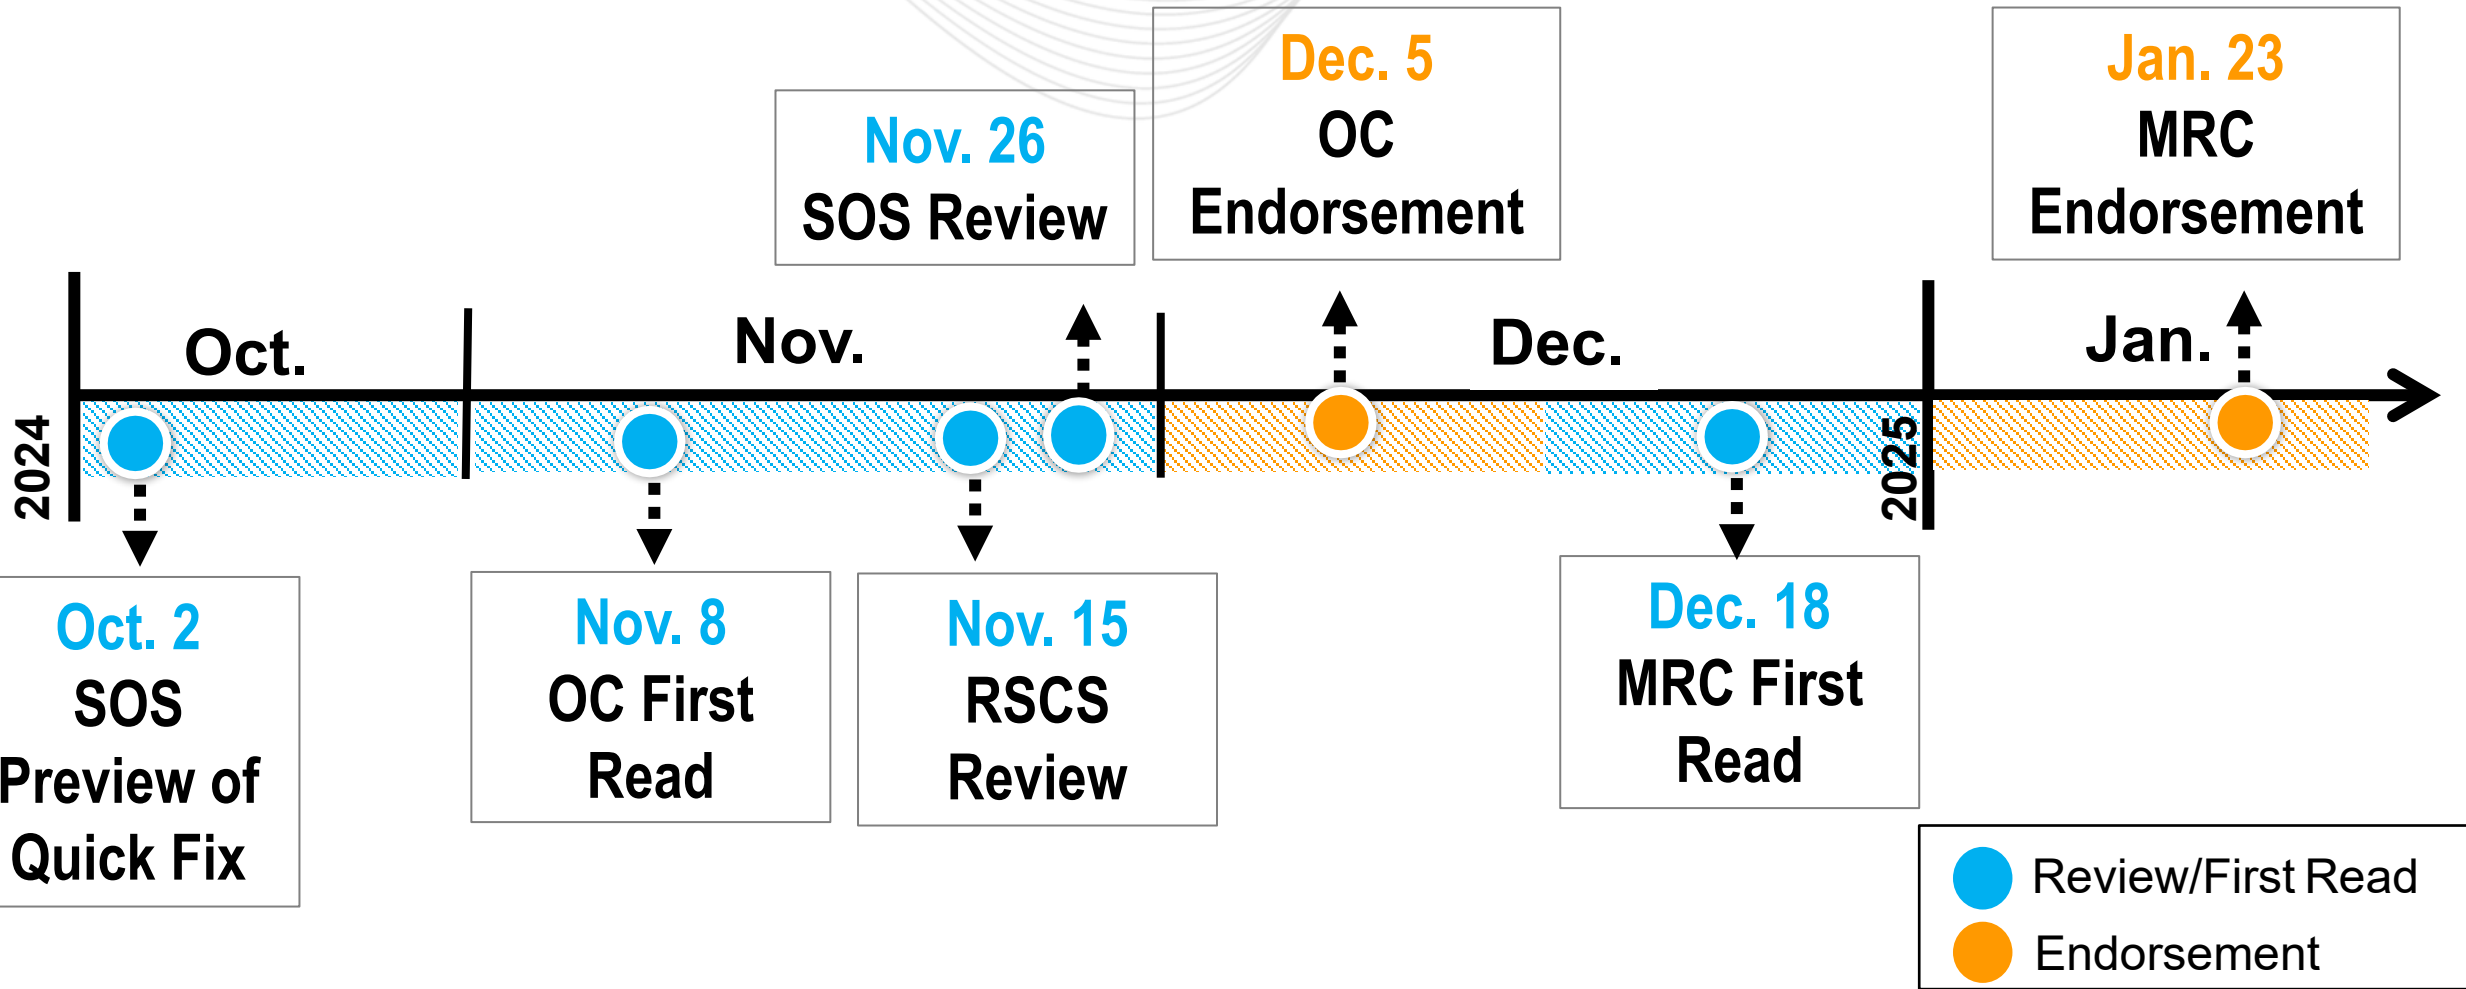

Manual 01: Control Center and Data Exchange
Requirements, Revision 49

- Section 4.5.3, Update “facility rating” to “Transmission Facility Rating” for consistency with other PJM Manuals..
- Attachment A: Data Specification and Collection, Table B: EMS Services, changed definition of #8 for row B.6, which makes state of charge required for Open-Loop Hybrid Resources in addition to existing Energy Storage Resource Model Participant. These revisions conform to the FERC Order addressing the Hybrids Phase II solution.

Manual 01: Control Center and Data Exchange
Requirements, Revision 49

- Attachment F: Overview and Requirements for Remote Operations of Market Operations Centers due to Exceptional Circumstances, updated PJM personnel contacts.

Manual 01: Control Center and Data Exchange
Requirements, Revision 49
