Manual 01: Control Center and Data Exchange Requirements, Revision 49

Ryan Nice, Manager EMS Support
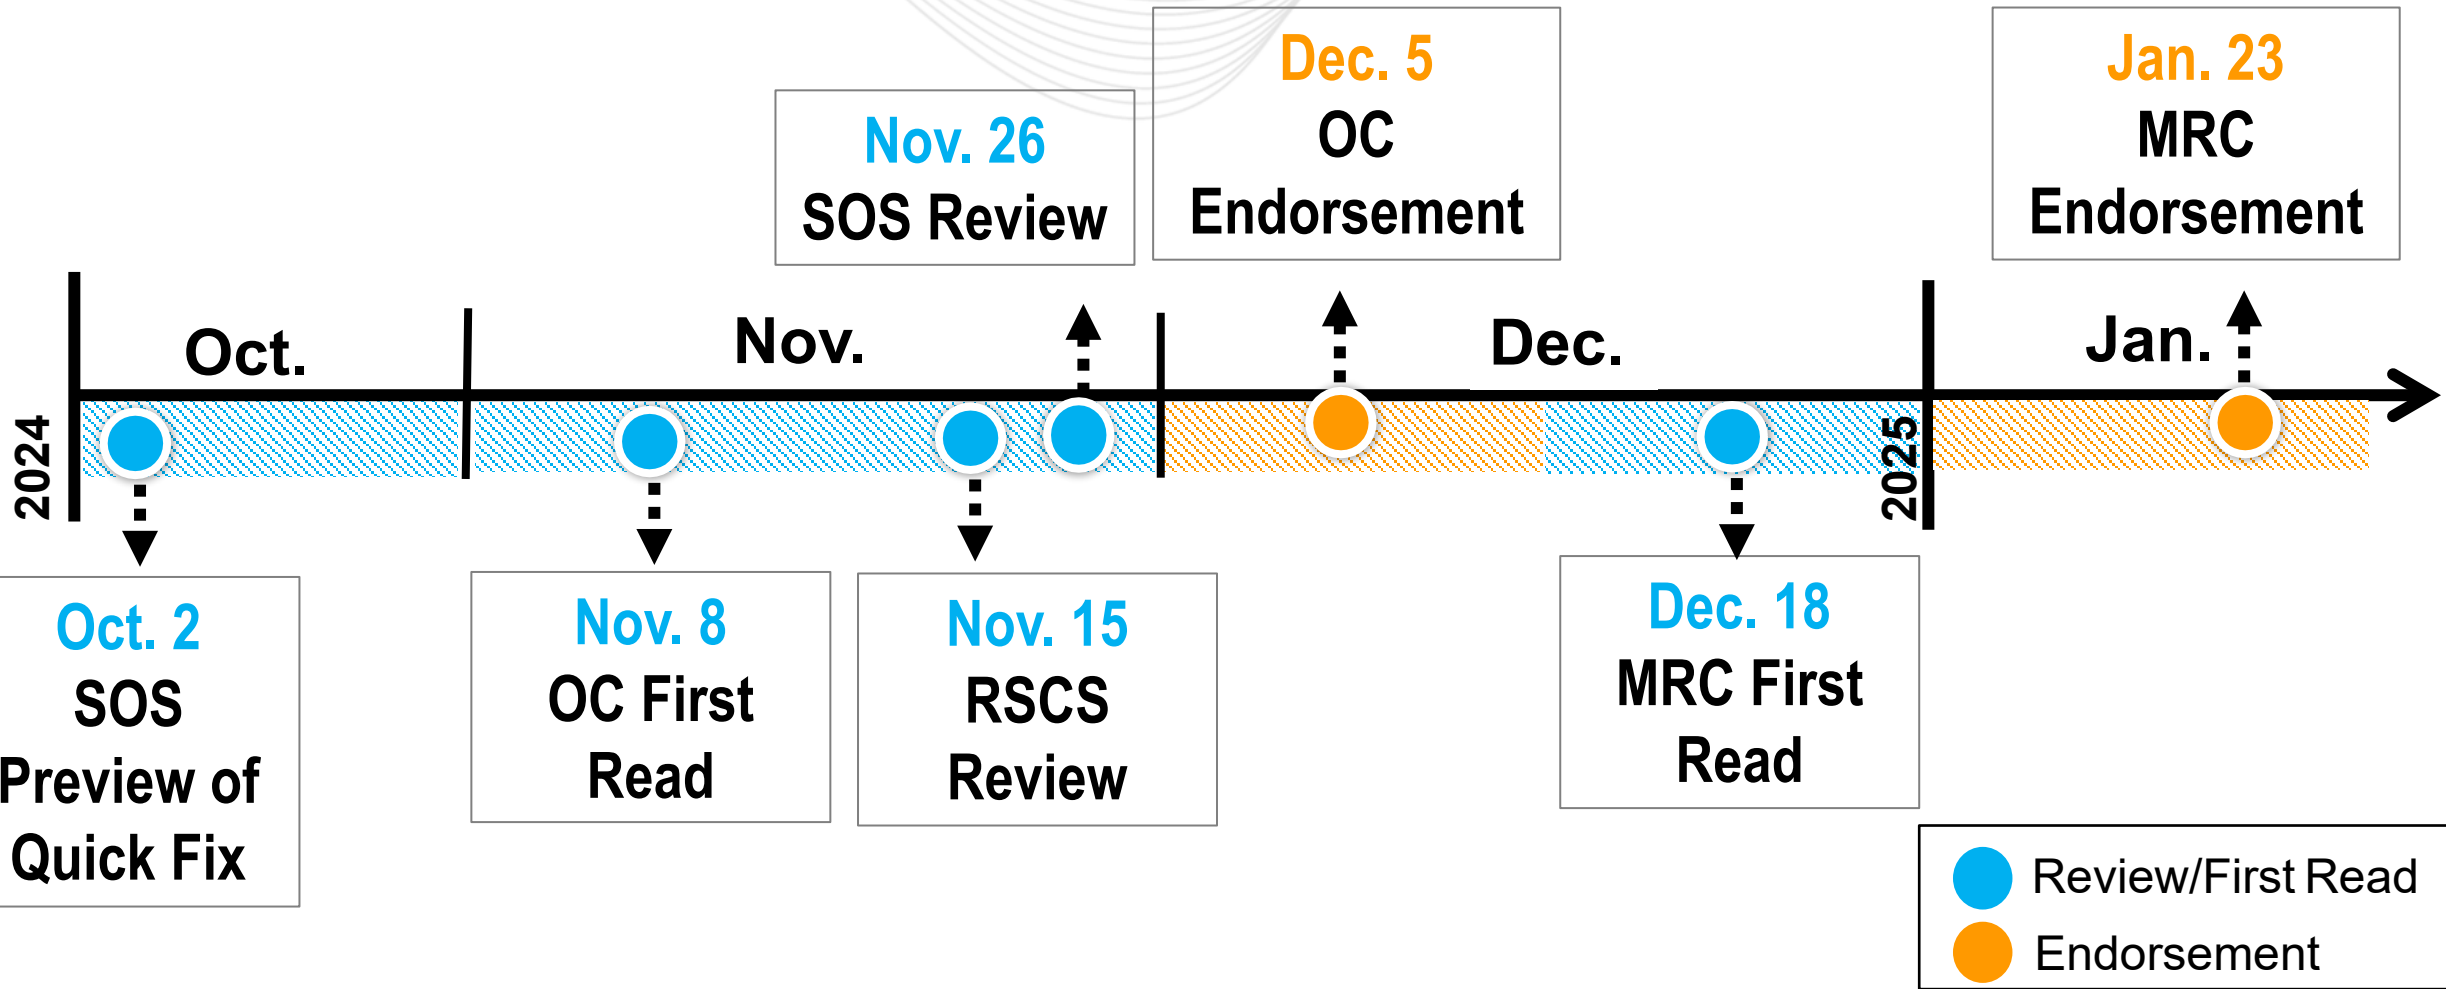

System Operations Subcommittee

November 26, 2024

- Quick Fix

- Section 3.2Communication Method

    – Proposed revisions provide greater clarity regarding PJM's alternate communication method that can be used as a backup for a wide variety of large-scale SCADA failure modes

    – Proposed revisions include updated text (#2 section of for alternative non-EMS SCADA communications with latest description and guidance, including a diagram.4.1, Requirements for Electronic Alternate Data.

Manual 01: Control Center and Data Exchange Requirements, Revision 49

- Quick Fix

- Attachment E: Reliability Guidelines to Mitigate the Unplanned Loss of EMS Real Time Assessment (RTA) Capabilities

  - Proposed revisions provide greater clarity regarding PJM's "View-Only Mode" that allows PJM to negate incoming links during windows of planned maintenance, where risks of incorrect data are elevated.
