

# Education Plan Overview

Chantal Aimee Hendrzak  
Executive Director, IT Operations & Architecture  
Deactivation Enhancements Senior Task Force  
October 12, 2023

## LEARNING OBJECTIVES & TARGETED STAKEHOLDER MEETING

### October 12

- [ 1 ] Understand how the Deactivation Process works
- [ 2 ] Understand how compensation & cost allocation works for resources requested to operate beyond their desired deactivation date.

### November 9

- [ 3 ] Understand how units requested to operate beyond their desired deactivation date are included in the energy supply stack (DA, RAC & RT)
  - 3.1 – Understand how units requested to operate beyond their desired deactivation date are included in the capacity supply stack & the criteria for and mechanism to account for these units in capacity market auctions.
  - 3.2 – Understand how units requested to operate beyond their desired deactivation date operate in real-time from an Operations Perspective.
- [ 4 ] Understand how the process terminates for resources that have agreed to operate beyond their desired deactivation date.
