PJMA\textsuperscript{1} for project reevaluation recommends that PJM only reevaluate projects with a capital cost of $2050\textsuperscript{M} or higher. For projects with a cost less than $2050\textsuperscript{M}, if project cost increases such that the B/C ratio (given the original benefits) falls below 1.25, then PJM will study the impacts of cancelling the project.
