

# Potential Short Term Items

Modeling Generation Senior Task Force  
January 7, 2019

- Formalize Duct Burner/ Peaking Segment DA and RT rules and operation in manuals
- Implement telemetry data for Generators to tell PJM when they are in a configuration changes, at a mill point, or other hold point
- Hourly Ramp Rate Updates (per EPFSTF)  
<https://pjm.com/committees-and-groups/task-forces/epfstf.aspx>
- Pseudo Model rules?
