

1.42A.02 Supplemental Project

“Supplemental Project” shall mean a transmission expansion or enhancement that is not required for compliance with the following PJM criteria: System reliability, operational performance or economic criteria, pursuant to a determination by the Office of the Interconnection. Supplemental Projects are not entitled to regional cost allocation. Any system upgrade required to maintain the reliability of the system that is driven by the addition of the Supplemental Project shall be included within the scope of a “Supplemental Project” and shall be the responsibility of the entity sponsoring the Supplemental Project.

1.42A.01 Subregional RTEP Project

“Subregional RTEP Project” shall mean a transmission expansion or enhancement rated below 230 kV which is required for compliance with the following PJM criteria: system reliability, operational performance or economic criteria, pursuant to a determination by the Office of the Interconnection.

1.38.01 Regional RTEP Project

“Regional RTEP Project” shall mean a transmission expansion or enhancement rated at 230 kV or above which is required for compliance with the following criteria: system reliability, operational performance or economic criteria, pursuant to a determination by the Office of the Interconnection.
