July 11, 2023

Honorable Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E., Room 1A
Washington, D.C. 20426

Re:  PJM Interconnection, L.L.C., Docket No. ER22-2110-000

Notification of Occurrence of Transition Date

Dear Secretary Bose:

PJM Interconnection, L.L.C. (“PJM”) hereby notifies the Federal Energy Regulatory Commission (“Commission”) and PJM stakeholders that the Transition Date for PJM’s reformed interconnection process, as approved by the Commission in its order issued in the referenced docket on November 29, 2022, occurred on July 10, 2023.

As approved in the November 2022 Order, the proposed revisions to the Tariff, Parts VII and IX, to comprehensively reform PJM’s interconnection process take effect on the Transition Date, as defined in Tariff, Part VII. The Transition Date is defined there as: [T]he later of: (i) the effective date of Transmission Provider’s Docket Nos. ER22-2110-000, -001 transition cycle filing seeking FERC acceptance of this Tariff, Part VII or (ii) the date by which all AD2 and prior queue window Interconnection Service Agreements or wholesale market participation agreements have been executed or filed unexecuted.

---

1 Capitalized terms not otherwise defined herein shall have the meanings given to them in the PJM Open Access Transmission Tariff (“Tariff”).

3 Tariff, Part VII, Subpart A, section 300, Definitions T.
The latter of these two conditions—the date by which all AD2 and prior queue window Interconnection Service Agreements or wholesale market participation agreements have been executed or filed unexecuted—occurred on July 10, 2023, making July 10, 2023, the Transition Date.\(^4\) PJM at the June 26, 2023 meeting of the Interconnection Process Subcommittee notified its stakeholders that the Transition Date would occur July 10, 2023,\(^5\) and posted an additional notice on the PJM web site on July 6, 2023.\(^6\)

As of the Transition Date, there are approximately 740 New Service Requests subject to the Transition Period rules set forth in Tariff, Part VII. In accordance with the Transition Period rules, Project Developers will have until September 8, 2023, 60 days after the Transition Date, to comply with the Readiness Deposit and Site Control requirements of Tariff, Part VII, section 303 to remain in the PJM interconnection process.\(^7\)

While there is no compliance filing requirement concerning the occurrence of the Transition Date, PJM submits this filing to make the Commission and interested parties aware that the Transition Date has occurred. Please contact any of the undersigned if you require additional information.

---

\(^4\) In its deficiency letter response filed on July 10, 2023, PJM noted the importance of the Transition Date and raised, out of an abundance of caution, its concern that the Commission should issue an effective date for the agreements in that proceeding that is no later than the start of the Transition Period. *PJM Interconnection, L.L.C.*, Response to Deficiency Letter, Docket No. ER23-1851-001 at 6-7 (July 10, 2023).

\(^7\) Tariff, Part VII, Subpart B, section 303(A)(2).
Respectfully submitted,

/s/ David S. Berman
