- Enhanced Functionality Included:
  - Improved Filtering on Most Screens
  - Performance Tuning for PLC/NSPL Upload
- Screen Retirements:
  - ILR
  - CTR
  - Position Graph

- Continue to log in to Train and familiarize yourself with the new application
  - Provide any feedback to the PJM team <u>CapacityExchangeSupport@pjm.com</u>
- Additional Step for CSPs before 11/8/2018 :
  - Download Load Management event data for events called before 2014/2015 or ILR data
  - This data will no longer being available through the UI when Capacity Exchange goes live. Any CSP that wants a copy of the data must download it via eRPM production.

## Next Steps for Members that Utilize Browserless

- Prepare for transition to SSO authentication via XML:
  - Review PJM RESTful API for Authentication Guide
- Review XML examples for submits and query uploads on the <u>Capacity Exchange web page</u>. Only Company name was removed for all submits/queries, additionally, for PLC and NSPL some optional fields were removed from the queries
  - Zone name
  - Area name
