

New Features in Data Viewer

Sign in to Data Viewer to access custom settings.

If you do not have an account, go to [account manager](#) on the PJM website to create one.

Customize Your Displays

- 1 | Access available options for the current screen by clicking on **“Settings.”**
- 2 | Edit the preferred options, and your changes will be automatically saved.
- 3 | Delete your custom settings by clicking **“Reset.”**

- **Move panels** by dragging them to a different location.
- **Resize panels** by clicking on the gear icon and selecting a width.
- **Customize panels** by clicking on **“Settings”** and selecting the desired tab.
- **Remove or add panels** by selecting or deselecting them from the My Data Viewer Settings screen.
