

OASIS Transmission Service Sharing

In order to maintain compliance with FERC Order 890, PJM requires that Transmission Service reservations only be used by the company that initially purchased the reservation. Subaccounts of a parent company may use the parent company's reservations, and vice versa, but only after formal registration has been completed per this document. Affiliate and subsidiary companies do not qualify for linked accounts and must execute a resale via PJM's OASIS in order to facilitate scheduling.

The following rules apply to requests for a Transmission Service Sharing Mapping:

- A new mapping will only be created after the receipt and acknowledgement of this form by PJM.
- A modification to an existing mapping will only be made upon the receipt and acknowledgement of this form by PJM.
- PJM will require a minimum of one business day to verify and process the information contained within this form. Requests will be processed during normal PJM business hours (Monday - Friday, 08:00 – 17:00 EPT, excluding PJM Holidays)
- By default, reservation sharing mappings will be set up in both directions. (parent shares with subaccount, subaccount shares with parent) Exceptions may be requested via comments.
- Mappings will be created only for those accounts specifically listed on this form.

Completed forms should be emailed to tsi.support@pjm.com Questions can be directed via email or to PJM Member Relations at 610-666-8980

2750 Monroe Boulevard
Audubon, PA 19403
