

Authorization to Map a webRegistry PSE Entity Code to an ExSchedule Account

PJM maintains a mapping between a Market Participant's ExSchedule account and their OATI webRegistry PSE Entity Code for the purpose of establishing financial ownership of a Tag in relation to PJM. The ExSchedule application cannot validate and approve a Market Participant's Tag requests without this mapping.

The following rules apply to the submission of an authorization to link a webRegistry PSE Entity Code to an ExSchedule account:

- A new mapping will only be created after the receipt and acknowledgement of this form by PJM.
- A modification to an existing mapping will only be made upon the receipt and acknowledgement of this form by PJM.
- PJM will require a minimum of one business day to verify and process the information contained within this form. Requests will be processed during normal PJM business hours (Monday - Friday, 08:00 – 17:00 EPT, excluding PJM Holidays)
- A webRegistry PSE Entity Code may be linked to only one ExSchedule account at any given time
- Multiple webRegistry PSE Entity Codes may be linked to a single ExSchedule account

Completed forms should be emailed to tsi.support@pjm.com Questions can be directed via email or to PJM Member Relations at 610-666-8980

2750 Monroe Boulevard
Audubon, PA 19403
