

## **Declaration of Intra-BA Transaction Submission Method**

### **1. Purpose**

The purpose of this document is to formally select the method PJM will use to submit intra-BA transactions to the IDC and SDX in accordance with the NAESB v3.3 WEQ-008-1.9.1 standard.

### **2. NAESB-Registered Roles**

PJM is registered in the NAESB Electric Industry Registry (EIR) as both the Balancing Authority (BA) and the Transmission Service Provider (TSP). As PJM serves as the sole TSP within the PJM BA, this declaration will apply to both registered roles.

### **3. Declaration of Method Selection**

Pursuant to NAESB v3.3 WEQ-008-1.9.1, PJM has elected to use the Generator Prioritization Method when submitting Intra-BA Transactions to the IDC and the SDX. Additionally, PJM will submit Generator Priority Schedules as specified by the NAESB v3.3 WEQ-008-1.9.3 standard.

### **4. History of Method Selection**

<b>Effective Date</b>	<b>Termination Date</b>	<b>Method Selected</b>
6/2/2022 11:00 EDT	N/A	Generator Prioritization
