Re: **Transource West Virginia, LLC**  
**Docket No. ER15-2114**

Dear Secretary Bose:

American Electric Power Service Corporation (“AEPSC”), on behalf of its affiliate Transource West Virginia (“TWV”), hereby re-submits TWV’s 2018 annual true-up filing to address a formulaic error discovered in TWV’s transmission formula that was initially submitted on July 1, 2019 (“July 1 Filing”) pursuant to Attachment H-26 of the PJM Interconnection, L.L.C. (“PJM”) Open Access Transmission Tariff (“OATT”). The 2018 true-up amount will be included in customer rates during 2020 as a component of the 2020 projection, and therefore TWV’s 2020 projected transmission revenue requirement submitted on September 30, 2019 (“September 30 Filing”) also needs to be corrected.

During October, 2019 AEPSC determined that the zero value on line 8 of Attachment H-26 from the July 1 filing was incorrect. That value should have been the (\$224,278) 2016 True-Up adjustment which had been included in the 2018 projection. This resulted in an over-statement of the net revenue requirement on line 9 of Attachment H-26 and the 2018 true-up amount which was calculated on worksheet 6 – True-Up Interest in the July 1 Filing. This incorrect 2018 true-up amount was then used in the September 30th 2020 projection Filing.

To resolve this issue, AEPSC is submitting two revised formula rate templates: the corrected 2018 Annual True-Up Revenue Requirement and the corrected 2020 Projected Transmission Revenue Requirement. The net impact of correcting the September 30 Filing is a decrease to the projected revenue requirement for 2020 of \$247,455. This change represents the \$224,278 correction plus interest.

The revised files attached hereto have been submitted to PJM for posting (and publication, pursuant to AEP’s protocols) on the PJM website at:
