1. Contractors currently under contract and working on Dominion Energy property will not be available for IC right to build work.

2. IC Right to Build Contractor crews must be approved by Dominion Energy and will not be allowed to work more than 40 hours per week without Dominion Energy review and approval.

Disclaimer: Additional criteria, such as insurance, contract provisions, etc., will be required for review prior to approval of IC Right to Build work on Dominion Energy's distribution system. Review of a detailed schedule from the IC using Dominion Energy approved contractors for the specified upgrades will also be required to determine reasonableness of the proposed schedule.
